Course Description
Advanced Dermatology for Primary Care is designed for the non-dermatologist and will focus on practical office dermatology. Primary care physicians, nurses, physician assistants, nurse practitioners and other medical professionals with an interest in dermatology are encouraged to attend. Our faculty will present a wide spectrum of common dermatological problems and emphasize effective management. Ample opportunity will be given for questions during the lectures and at the end of each session.

Two intensive hands-on workshops featuring biopsy, excision, advanced repairs, cryotherapy and electrocautery techniques will take place on Sunday morning. Participants will be expected to bring some surgical instruments. More detailed information will be provided upon receipt of your registration. A live patient demonstration will be available at Fletcher Allen Health Care to illustrate the injection of botulinum toxin for glabellar and forehead wrinkles.

Objectives
1. Appreciate the pathophysiology of the most common dermatologic problems such as acne, dermatitis, psoriasis, skin infections and skin tumors.
2. Identify current therapies available for these conditions and how they are administered.
3. Apply proper dermatology coding.

Recreation / Leisure Time
This course, combining an intensive program with a long weekend timetable, is designed so that participants are free in the afternoons to enjoy the beauty of Vermont. Burlington is ideally situated on the shores of Lake Champlain, the sixth largest freshwater lake in the U.S. and offers great shopping and excellent restaurants. Echo at the Leahy Center for Lake Champlain provides fun learning activities for children on the ecology, history and culture of Lake Champlain. Historic Shelburne Farms and the Shelburne Museum, an eclectic collection of Americana, are a 20-minute drive from the hotel. Within an hour drive are the Ben & Jerry's Ice Cream Factory, UVM Morgan Horse Farm, and the world's largest granite quarry.
