VERMONT SUMMER PEDIATRIC SEMINAR

“All other conferences pale in comparison to the caliber of this one. It keeps me coming back every year!”

June 17-20, 2010

THE EQUINOX
EST. 1769
MANCHESTER VILLAGE VERMONT
Welcome!

We hope that you can join us for this year’s Vermont Summer Pediatric Seminar. Once again, we have selected our guest faculty to include highly acclaimed speakers and teachers and placed them in a setting devoted to education and fun. This year’s terrific guest faculty include: Drs. William Balistreri, Toni Darville, Jane Knapp, Gregory Landry, Anthony Mancini plus Drs. Lewis First, Jerry Lucey, and James Hudziak from Vermont.

The program content has been developed to enhance the general pediatrician’s knowledge in selected topic areas. Participants will improve their diagnostic skills and management techniques related to common office pediatric problems, including Child Psychiatry, Dermatology, Emergency Medicine, GI/Nutrition, Infectious Diseases, Sports Medicine, and General Pediatrics. By the end of the course, participants will be able to appropriately manage nutrition and obesity in the growing child, common pediatric emergency medical situations, common acute sports injuries in the office setting as well as diagnose and manage children and adolescents with common mental health issues. These and many other topics will be discussed at this year’s course!

The Vermont Summer Pediatric Seminar will again be held at the Equinox Resort in Manchester, Vermont. Building on a tradition established by Drs. Jerry Lucey and Jim McKay, and now Lewis First, the course has continued to receive a great response. Participant comments have included: “…excellent conference. A lot to learn and loads of fun”; and “This conference continues to set the bar for all other pediatric conferences.”
